

hand care

From typing or writing to eating and driving, we rely on our hands every day for almost every activity.

Fresh & Clean offers a complete range of products to cover all aspects of safe and effective hand care.

Hand Sanitisers

Hand washing is essential in preventing the spread of illness; however when used alone is not enough to kill bacteria.

- ✓ Works quickly to destroy bacteria
- ✓ Approved food grade safe, no rinsing needed
- ✓ Hands-free dispensing systems available

Hand Soap

Fresh & Clean economical dispenser units can be used in public, commercial and industrial washrooms of any size.

- ✓ Easy to use & lockable
- ✓ Choice of liquid soap, foam soap or spray soap
- ✓ Regular scheduled refills

Hand Drying Systems

Hygienic hand drying is a very important step to clean hands. Fresh & Clean provides three distinct hand drying solutions.

- ✓ Cloth Hand Towels – absorbent and hygienic
- ✓ Warm Hand Dryers – fully automatic and touch start units available
- ✓ Paper Towel Dispensers – Hands free dispenser to reduce the spread of bacteria

The Fresh & Clean hand care program is designed to offer a complete solution that can be used in most types of commercial, industrial, health care and food manufacturing environments.

An assessment of the current washroom facilities and your business operations is used to determine the best fit system for each customer.

Why use Fresh & Clean's managed rental services?

- Affordable washroom solutions
- No capital outlay is required
- Regular, agreed service schedules
- Hassle free and flexible
- Tailored program developed for each customer
